Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed August 14, 2006, has been entered. The specification and claim 1 has been amended as requested. Claims 15-40 have been cancelled and new claims 43-53 have been added. Thus, the pending claims are 1-14 and 41-53.
2. Said amendment to the specification is sufficient to withdraw the objection to the drawing because Figure 3 was not described therein, as set forth in section 4 of the last Office Action.
3. Said amendment is also sufficient to withdraw the 102 rejection by Bunyan (US 5,115,104) set forth in section 8 of the last Office Action. Specifically, the allowable subject matter of claim 41 has been incorporated into claim 8. As such, said 102 rejection is hereby withdrawn. Additionally, said amendment is sufficient to withdraw the rejection of claim 42 by Bunyan set forth in section 9 of the last Office Action. Furthermore, the rejections of claims 1-14 by Higashiguchi (US 4,687,527) as set forth in sections 10 and 11 of the last Office Action are also withdrawn due to said amendment to claim 1.

Drawings

4. The drawings stand objected to as set forth in section 4 of the last Office Action for failing to comply with 37 CFR 1.84(p)(4) because reference character "5" is still employed to designate both the flock and the release agent. See amendment to the specification filed August 14, 2006, line 9 of the paragraph.

Terminal Disclaimer

5. The terminal disclaimer filed on August 14, 2006, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of copending application 09/621,830, has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Objections

6. Claim 41 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim or amend the claim to place the claim in proper dependent form, or rewrite the claim in independent form. The allowable subject matter of claim 41 has been incorporated into claim 1. However, claim 41 has not been cancelled or amended to further limit claim 1.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 11 limits the thermosetting film to being applied to a substrate, while claim 1, from which claim 11 depends, requires said thermosetting film to not being adhered to a substrate. Hence, claim 11 contradicts the limitations of claim 1.

Art Unit: 1771

9. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

10. Claims 1-14 and 41-53 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. The specification as originally filed does not support the concept that the thermosetting film is not adhered to a *permanent* substrate. There is no mention or suggestion of a substrate being *permanent* or even temporary. Applicant asserts the word "permanent" is employed to distinguish the substrate from the temporary "paper backing commonly present in pre-formed and self-supporting thermosetting films" (Amendment, page 7, 5th paragraph). In response, it is noted that the specification does not disclose or suggest said "paper backings." Thus, the claims contain new matter.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

12. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1771

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cheryl Juska whose telephone number is 571-272-1477. The examiner can normally be reached on Monday-Friday 10am-6pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached at 571-272-1478. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
